# SEO Best Practices

Keyword research helps businesses understand what searchers are looking for and optimize their websites to appear in the best search results for their market

Google, value well-built websites that provide accurate information quickly. Small businesses should invest in high-quality websites that are fast and mobile-responsive.

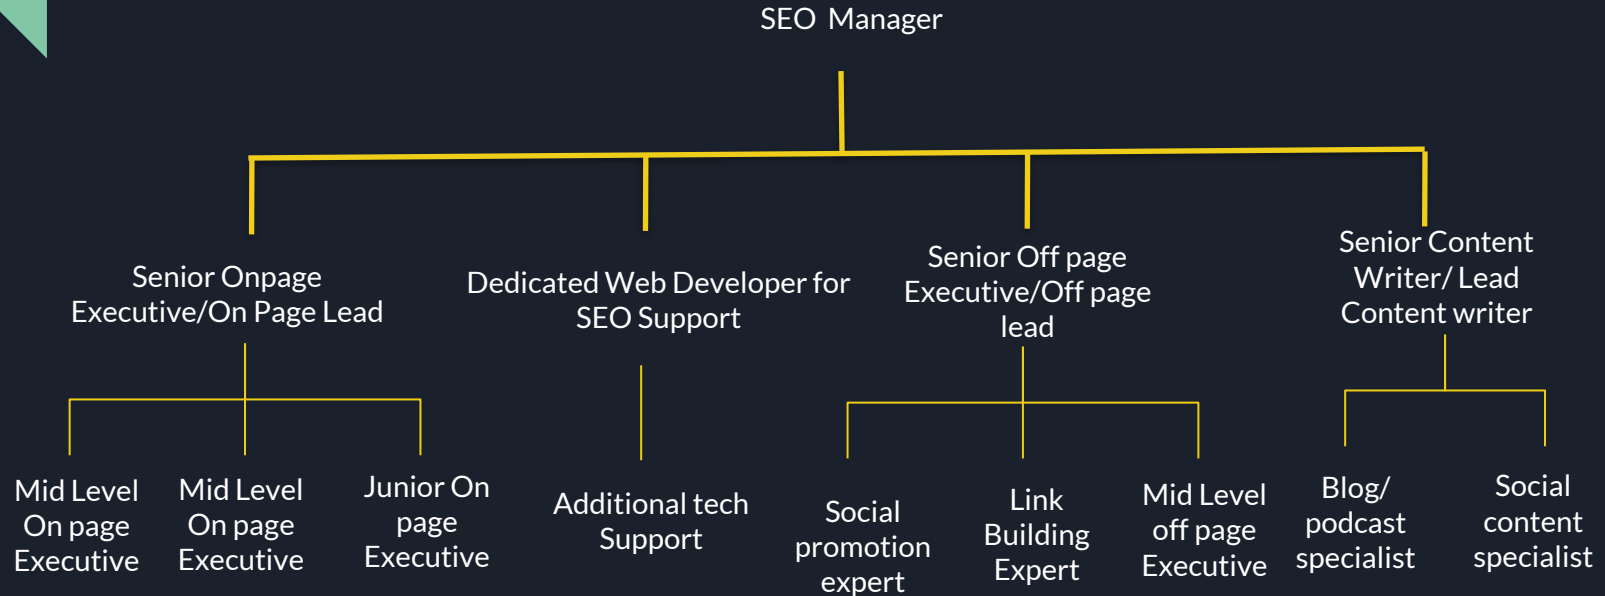

Earning links back to a website is a core tenet of effective SEO. Successful link-building strategies require a significant investment in time and personnel effort,

Google search engine results change based on location. This makes local search engine results pages even more important

Content extends beyond text on a company's "About Us" and home pages. Small businesses should create high-quality, useful content for their users to improve their SEO.

# Our SEO team hierarchy

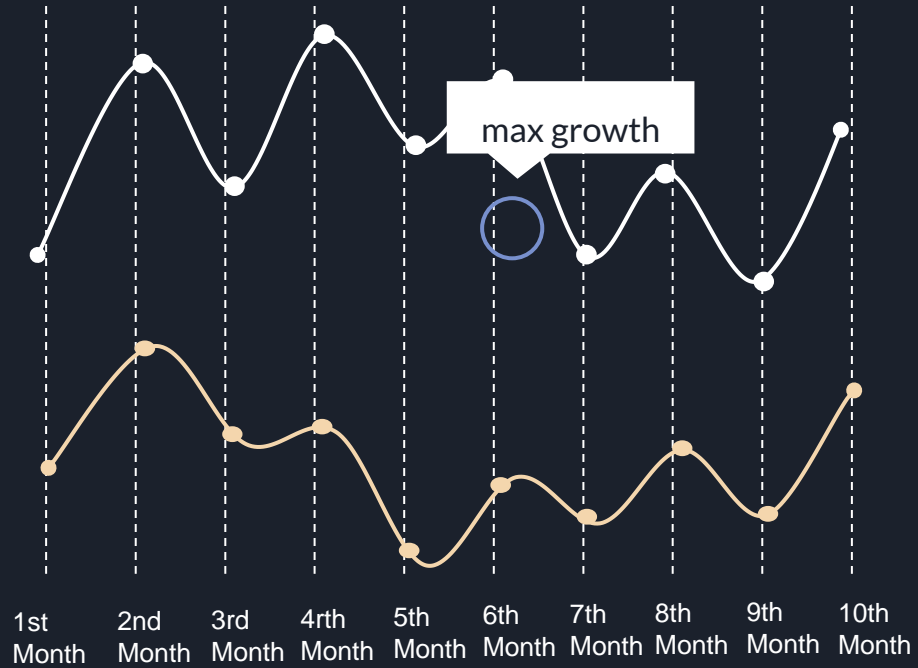

**P.S:** depends on the project volume the team size has been defined

# Impact

Direct impact on sales after doing SEO with us\*

\* Based on the business statistics of our past projects
